# PART I

## INTRODUCTION

The Manitoba Law Reform Commission is pleased to present its annual report for 2013-2014. The Commission published one final report in 2013-2014: *Contributory Fault: The Tortfeasors and Contributory Negligence Act*. In the report, the Commission reviews the rules of contributory fault and joint tortfeasors and recommends new legislation to modernize and rationalize the law.

The Commission published a *Discussion Paper on Manitoba's Environmental Assessment and Licensing Regime* in January 2014. The Paper identifies 18 questions for discussion relevant to Manitoba's environmental assessment and licensing regime. It has generated extensive feedback from interested persons both in Manitoba and across Canada. The Commission intends to publish a *Consultation Report on Manitoba's Environmental Assessment and Licensing Regime* in late 2014.

Work is underway on a number of other projects including the subject of mandatory reporting by health care professionals under section 157 of *The Highway Traffic Act*, declarations of parentage under *The Family Maintenance Act*, reform of *The Presumption of Death Act*, and a review of the procedural rules of Manitoba's agencies, boards and commissions.

The Commission has been actively involved in external relations throughout 2013-2014. Commission staff participated in the Manitoba Bar Association's Law Day in April 2013. The Commission also participated in a symposium sponsored by the Federation of Law Reform Agencies of Canada in February 2013. The Hon. Gerald Jewers represents the Commission on the Law Society of Manitoba's Access to Justice Stakeholders Committee. The Commission was invited to present its *Discussion Paper on Manitoba's Environmental Assessment and Licensing Regime* to several interested groups in 2013-2014, and has met extensively with groups and individuals as part of the consultation process for the environmental assessment and licensing regime project.

## PART II

### THE YEAR IN REVIEW April 1, 2013 to March 31, 2014

#### 1. REPORT ISSUED

The full text and executive summaries of all reports can be found on the Commission's website at [www.manitobalawreform.ca](http://www.manitobalawreform.ca).

##### A. *Contributory Fault: The Tortfeasors and Contributory Negligence Act (Report #128)*

The Manitoba Law Reform Commission published its report, *Contributory Fault: The Tortfeasors and Contributory Negligence Act* on September 26, 2013, following a six-week consultation period. The report sets out 25 recommendations to modernize the law of contribution among tortfeasors and the rules relating to contributory negligence.

In 1929, Manitoba enacted legislation to alleviate the harsh common law rules governing contribution among tortfeasors and contributory negligence. The Act has been amended only twice since that time, in 1973 and in 1980. In its report, the Commission suggests that revision of the Act is now appropriate, given the developments in the law in the decades since the early reforms. It recommends the enactment of a new statute entitled *The Contributory Fault Act*.

#### 2. DISCUSSION PAPER ISSUED

##### A. *Discussion Paper on Manitoba's Environmental Assessment and Licensing Regime*

On January 28, 2014, the Manitoba Law Reform Commission published its *Discussion Paper on Manitoba's Environmental Assessment and Licensing Regime*. The paper identifies 18 issues for discussion relevant to Manitoba's environmental assessment and licensing regime, ranging from the scope of environmental assessment to enforcement and compliance issues. The paper has generated extensive feedback from participants in Manitoba's environmental assessment system, and from interested persons outside Manitoba.

In 2013-2014, the Manitoba Law Reform Commission gave presentations on its *Discussion Paper on Manitoba's Environmental Assessment and Licensing Regime* to the Manitoba Environmental Industries Association, the Manitoba Bar Association's Environmental Law Section, students and faculty at the University of Winnipeg and the University of Manitoba, and the Mining Association of Manitoba. It has also met extensively with interested groups and individuals as part

of its consultation process.

### **3. IMPLEMENTATION**

In addition to the Commission's most recent reports, areas of particular concern to the Commission are the recommendations found in: *Limitations* (Report #123, 2010); *Limitations of Actions in Conversion and Detinue* (Report #125, 2011), *Enduring Powers of Attorney, Areas of Reform* (Western Canada Law Reform Agencies Report, 2008); *Enduring Powers of Attorney: Supplementary Report* (Report #117, 2008), *Wills and Succession Legislation* (Report #108, 2003), *Compensation for Vaccine-Damaged Children* (Report #104, 2000) and *Informal Assessment of Competence* (Report #102, 1999).

### **4. CURRENT PROJECTS**

#### **A. Manitoba's Environmental Assessment and Licensing Legislation**

As indicated above, the Commission is currently reviewing Manitoba's environmental legislation with a view to making recommendations for change to Manitoba's environmental assessment and licensing regime. The Commission assembled a project committee of experts in the field of environmental law to assist with this project. The committee met regularly throughout 2013-2014. This work forms part of a larger joint Manitoba Law Reform Commission-Public Interest Law Centre project, *Engaging Manitoba in Environmental Law*, funded by the Manitoba Law Foundation. The Commission published a *Discussion Paper on Manitoba's Environmental Assessment and Licensing Regime* in January 2014 and intends to publish a Consultation Report in late 2014, to be followed by a Final Report.

#### **A. Reporting Under Section 157 of *The Highway Traffic Act***

The Commission is currently reviewing section 157 of *The Highway Traffic Act*. This provision requires physicians and optometrists to report to the Registrar of Motor Vehicles if a patient suffers from a disease or disability that may be expected to interfere with the safe operation of a motor vehicle. The Commission has become aware of concerns about the effectiveness of this provision among health care professionals. The reporting obligation also engages important privacy considerations. The current provision lacks clarity, which may affect compliance and enforcement.

The Commission has assembled a committee of experts from the health care professions and the transportation community to give advice on the possible reform of section 157 of *The Highway Traffic Act*. The committee met twice in 2013-2014 and will continue its work into 2014-2015. The Commission intends to publish a Consultation Report and a Final Report on this topic in 2014.

### **C. Assisted Reproduction: Legal Parentage and Birth Registration**

In 2013-2014, the Commission conducted research on the interaction of assisted reproduction technologies and the rules concerning legal parentage and birth registration. Parentage is a lifelong declaration of status that impacts a number of areas in a child's life, affecting identity, citizenship, inheritance and dependants' relief rights, and entitlement to benefits under federal and provincial laws. It also imposes obligations with respect to caring for and supporting the child and affects the ability of an adult to participate fully in a child's life and to provide consent for the purposes of health care, travel, education and adoption.

The presumptions of parentage set out in the current *Family Maintenance Act* do not account for conception by assisted reproduction and are no longer consistent with the social and legal realities of parenthood. The result is uncertainty for intended parents and children alike. The Commission has prepared an Issue Paper on this topic which will be published in mid-May 2014. The Issue Paper identifies the main areas in need of reform and explores possible legislative approaches to the legal problems raised by the interaction of assisted reproduction technologies and the presumptions of parentage.

### **D. *The Presumption of Death Act***

The Commission is preparing a report to recommend reform of *The Presumption of Death Act*. The Act came into force in 1968 and has not been materially amended since that time. The Act provides a mechanism to obtain an order declaring that a person is presumed dead after a prolonged absence. The Act has important implications for survivors' rights and entitlements.

The Commission will consider possible reforms to modernize the legislation and to clarify the duties of personal representatives and the status of the deceased's property. The Commission will also consider the relationship between this statute and other relevant provincial legislation including *The Insurance Act*, *The Marriage Act*, *The Pension Benefit Act* and *The Public Trustee Act*. The Commission expects to complete this project in 2014-2015.

### **E. Administrative Powers and Procedures in Manitoba.**

Manitoba's Agencies, Boards and Commissions play an important role in the administration of justice in this province. They make decisions in a wide range of cases that affect the interests of Manitoba's residents and businesses. Each of Manitoba's agencies, boards and commissions operate under their own set of procedural rules. While some of these bodies are governed by detailed and transparent rules of procedure, many of the smaller boards and tribunals may require additional guidance in this area. Procedural rules help to ensure that decisions will be unbiased and reinforce confidence in the tribunals' proceedings.

The Commission has undertaken a project to examine the feasibility of enacting a model set of powers and procedures for administrative bodies in this province. Legislation could provide a basic set of procedural rules that could be adopted in their entirety, or used as a starting point for those agencies, boards or commissions with specialized needs. A uniform set of rules will enhance the rule of law and the transparency of decision-making in Manitoba. The Commission has been assisted in this project throughout 2013-2014 by law students working under the auspices of Pro Bono Students Association of Canada.

## **5. FUTURE PROJECTS**

### **A. *The Animal Care Act***

Prompted by recent developments in the field of animal welfare law, the Commission will examine the question of standing to seek an order under *The Animal Care Act*, and issues of enforcement. Under the current Act, only designated animal protection officers are authorized to intervene on behalf of animals in distress. Enforcement through judicial means is unavailable except in specific limited circumstances. The Commission will consider what, if any, amendments to the Act may be required to ensure that Manitoba's law remains responsive to changing social values in this area.

### **B. Contiguous Lands: Natural and Other Encroachments**

Natural encroachments on contiguous lands comprise mostly trees and weeds. Other encroachments include buildings, driveways and fences. The common law governs natural encroachments, other than noxious weeds for which there is legislation. Other encroachments are governed by common and statute law. Large areas of the law respecting both natural and other encroachments are confusing and uncertain. The Commission will inquire into possible reform in this area.

### **C. Infeasible Title and Resulting and Constructive Trusts**

The Commission will examine the law in Manitoba concerning the relationship between the indefeasibility of title sections in *The Real Property Act* and proprietary interests in land established by resulting and constructive trusts. The Commission will consider whether reform of sections 58 and 59 of *The Real Property Act* is required to fairly account for equitable interests in land.

#### **D. Governance and Professional Regulatory Bodies**

In response to a suggestion from a member of the public, the Commission has agreed to conduct research into the governance of professional regulatory bodies, particularly with regard to the membership of governing councils. The Commission will explore the public interest in the governance of professional organizations, and the need for lay membership in professional governing bodies.

#### **E. Municipal Conflict of Interest**

In response to recent litigation in Manitoba and elsewhere, the Commission will consider possible changes to *The Municipal Council Conflict of Interest Act* to allow for more proportionate and effective enforcement mechanisms.

The Commission welcomes comments and suggestions with respect to these subject areas and any other potential law reform projects.

## PART III

The Manitoba Law Foundation provides a yearly grant of \$100,000 to the Commission. For the fiscal year 2013-2014, the Commission was again fortunate to receive an additional \$20,000 from the Manitoba Law Foundation, increasing the grant to \$120,000. The Department of Justice continues to provide a total grant of \$100,000 consisting of in-kind services valued at \$15,000 and a monetary grant of \$85,000.

The Commission wishes to thank both the Department of Justice and the Manitoba Law Foundation for their continued support of its work.

### **4. EXTERNAL RELATIONS AND ACTIVITIES**

In 2012-2013, the Commission continued its efforts to improve its accessibility and visibility within the community and to liaise with other law reform agencies.

In April 2013, Commission staff participated in the Manitoba Bar Association's Law Day where they had the opportunity to share the Commission's work with members of the public, and gain insight into possible future areas of law reform.

In February 2014, Commission staff attended a symposium sponsored by the Federation of Law Reform Agencies of Canada. The symposium offered training in such areas as effective consultation, project management and evaluation, and meeting the needs of government. The symposium provided an invaluable opportunity to meet colleagues from across the country and learn from their experience and insight.

The Hon. Gerald Jewers, Commissioner, represents the Commission on the Access to Justice Committee created by the Manitoba Law Society in 2011. The purpose of the Committee is to share ideas, information and best practices and to coordinate efforts in the area of access to justice. Representatives of government, the courts, the practising bar and legal aid bodies are also included on the Committee.

The Commission is a member of the Federation of Law Reform Agencies of Canada and of the Commonwealth Association of Law Reform Agencies. Commission staff continues to be involved in the work of the Uniform Law Conference of Canada. Through its project, *Engaging Manitobans in Environmental Law*, the Commission has had the opportunity to

meet with industry groups, environmental non-governmental organizations, students, academics, and other interested members of the public.

The Commission makes regular contributions to the Manitoba Bar Association's Legal Research newsletter, *The Law and Library Monthly*.

The Commission's publications have been the subject of commentary in judgments, legal journals and in the print and electronic media. A recent electronic search indicates that the Manitoba Law Reform Commission's publications have been referred to in 141 reported Canadian judgments, including the Supreme Court of Canada's decision in *Manitoba Métis Federation Inc v Canada (Attorney General)*, 2013 SCC14, and in 82 academic articles.
